

YOU WANTED BETTER AUTOPSY TWINE. Sew we made it.

Introducing: Autopsy Twine/Ligature - Waxed

You told the LDI Innovation Lab about the challenges associated with post mortem twine/ligature that breaks. We delivered a solution that's perfect for tissue recovery, autopsy and other post-mortem procedures. Made from durable linen fibers and finished with a protective wax, our autopsy twine/ligature provides a fluid resistant option that's easier to thread and smoother to sew. And it is strong.

- › RESISTS BREAKING DURING POST MORTEM SUTURING
- › EASY TO THREAD THE EYE OF THE NEEDLE
- › WAXED & FLUID RESISTANT TO MAINTAIN POSITION
- › SMOOTH APPLICATION

Specifications

PART	AT-5W-LINEN
SIZE	1 lb. spool
PACKAGING	Packaged individually

Product Details: 5 cord linen material • Waxed finish • Natural color • 1 lb. spool (approximately 850 yards)
