

TRANSPORT WITHOUT LEAKS. Wrap your head around that.

Introducing: Cohesive Bandage Wraps

You told the LDI Innovation Lab about the challenges with fluids when restoring a donor after Tissue Donation. That's why we developed the Cohesive Bandage Wrap. Ensure absorbent materials are kept in place after donor restoration so that fluids do not leak during storage or transport to the funeral home.

Specifications

PART	COHBAN65
SIZE	6" wide x 5 yards long roll
PACKAGING	12 each / case

Product Details: Tan • Latex-free • Non-sterile
