

FINALLY STOPPING THE LEAKS... It's in the bag.

Introducing: EnviroMed-Bag® Body Bag

You told the LDI Innovation Lab you were tired of ripping and leaking body bags. That's why we created the EnviroMed-Bag® lineup. Designed with super-durable PVC-free materials and heat-sealed seams, our bags reduce tears and eliminate fluid leakage during removal, transport and storage of a body. The end result is a product that eliminates cleanup and protects from exposure to hazardous fluids.

- › AVOIDS THE MESS WITH LEAK & TEAR RESISTANT DESIGN
- › PREVENTS EXPOSURE TO HAZARDOUS FLUIDS
- › SAFE TO BURN WITH CHLORINE & PVC-FREE MATERIALS
