

YES TO LESS MESS. Avoid leaks during transport and storage.

Introducing: EnviroSorb® Super Capacity Liner

You told the LDI Innovation Lab about the challenges with post mortem fluids during storage and transport. That's why we developed Absorbent Liners that solidify the fluid and prevent leaks. Avoid the mess and simplify storage and transport of tissue donors, autopsied individuals, and edematous cases.

- › IMPREGNATED WITH SUPER ABSORBENT POLYMER THAT SOLIDIFIES UP TO 7 LITERS OF FLUID
- › POLY BACKING ENSURES OUTWARD FACING SIDE REMAINS DRY TO THE TOUCH
- › WRAP LIMBS OF TISSUE DONORS OR LINE BODY BAGS OF ANY HIGH FLUID CASE

Specifications

PART	SAP-2872
SIZE	28" x 72"
PACKAGING	10 each / bag, 10 bags / case

Product Details:

- White face
- White poly backing
- PVC-Free materials that can be cremated
