

EnviroSorb Formaldehyde Neutralizing Pad.

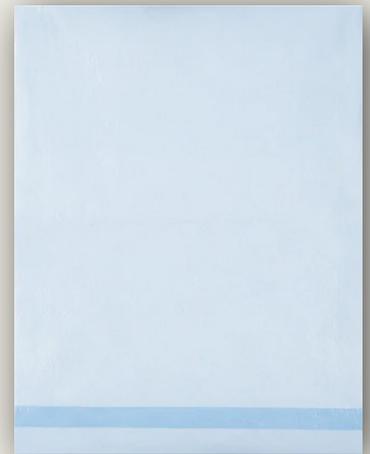

Built-In Fluid Absorption.
Cleaner. Safer. Smarter.

A SAFER SOLUTION FOR FLUID MANAGEMENT DURING RECOVERY

Introducing the EnviroSorb Formaldehyde Neutralizing Pad. A risk-reducing solution designed to:

- Absorb and contain fluids with a soaker fabric that chemically neutralizes formaldehyde.
- Reduce exposure to toxic formaldehyde during dissection.
- Simplify recovery by eliminating messy cleanup.

Built to ensure workplace safety and assist with OSHA compliance, the EnviroSorb Formaldehyde Neutralizing Pad keeps your team safe and keeps every recovery clean and dignified.
