

GLOVES NOT CUTTING IT? Feel better about hand protection.

Introducing: Flex-Gard™ Sterile Cut Resistant Glove Liners

You told the LDI Innovation Lab about the tradeoff of choosing between a glove that allows you to feel what you touch or one that protects your hand. That's why we created Flex-Gard™ Sterile Cut Resistant Glove Liners—the solution for maintaining tactile dexterity without compromising safety. Flex-Gard™ carries a level A3 rating, providing significantly better cut resistance protection than our competitors.

- › PROTECTS HANDS FROM INCIDENTAL CUTS DURING PROCEDURES
- › RETAINS TACTILE DEXTERITY WITH ULTRA-THIN DESIGN
- › PROVIDES 54% MORE PROTECTION THAN COMPETITOR'S LEVEL A2 GLOVES
- › ANSI/ASTM CUT LEVEL A3
